

€70 less for workers

€150 savings
for employers

SPOT THE MISTAKE !

Overtime work : beneficial for employers, detrimental for workers. The Arizona government continues to dismantle workers' rights.

Latest attack : the widespread use of "voluntary" overtime.

It means :

Workers will lose an average of €70 per month, while employers will save up to €150 on those same hours.

These "voluntary overtime hours" allow employers to circumvent the usual rules on standard overtime, without full pay increases or fair social security contributions.

Result:

- Less protection ;
- Less money in workers' pockets
- Less revenue for social security

Once again, it is the workers who pay, while the employers reap the rewards.

Let's not volunteer to be exploited!

Join the November appeal!

**ON NOVEMBER 26TH
WE'LL BE ON STRIKE**

**For decent wages,
fair contributions
and enhanced Social security**
