

# IT HAS TO CHANGE !

## Strike – November 24th , 25th & 26th

### Enough is enough.

Lower retirement income, stagnant wages, high cost of living, and always the same people who suffer while profits are soaring.

While prices are skyrocketing, the Arizona government continues to serve employers on a silver platter.

We, the workers, refuse to be the adjustment variable of an unjust system.

We will be on strike on November 24th, 25th & 26th to require other political choices that are fairer, more supportive, and more humane.

### WHY ARE WE ON STRIKE ?

- No salary increase planned for 2026-2027.
- Threats on automatic wage indexation.
- A pension penalty for those who have not “contributed” enough according to their criteria.
- Night work made easier to exploit, less well paid.
- Imposed flexibility at the expense of job security.
- An anti-social budget that empties families’ pockets while preserving employer subsidies.
- Tougher penalties for sick people.

### WE PROPOSE SOME ALTERNATIVES

- A serious review of the billions of euros offered each year to large companies.
- Fair social security contributions on all types of contracts.
- Strong sectoral negotiations to increase purchasing power and guarantee sustainable jobs.

### ON OCTOBER 14TH WE WERE 140,000 IN BRUSSELS

The government turned a deaf ear.

In November, let’s do better, be more numerous, be more visible.

Together, let’s make the voices of those who keep the country running heard.

Go on strike. Join the movement. Because change is necessary.
